President's Report

The Beautification Committee has exhausted their budget for the year from the DDA.

I have been working with Evelyn Good, Marsha, and our insurance agent regarding the insurance coverage for the DDA. Our Insurance agent Ken indicated that it will cost about an additional \$5 to our current policy. I emailed Ken with the okay to add the DDA to our policy, as they should be on it.

I have spoken with Troy regarding meeting attendance.

Troy provided Dave with the photos he requested, Traverse Bay Rd. Although I will say that in my many trips past that area, I noted that it does not look very good, again.

I have spoken with Dale and he can route the names onto the slats for Flights. He has found extra slats and the stencils at the garage and we need the list of names so we can get this project accomplished.

Road Report

PK Contracting has painted the double yellow line on Barlow Rd. between E. Main and the northern Village limit.

Respectfully submitted,

Sheila
