8/1-31 – Alcona County Fair

8/15 – Spoke with Casey, from Consumers car charging project. The Village parking lot location is no longer an option for a location. Two landowners have refused an easement. Casey would like to have a couple people from the Village meet with him this month to look at other options. I suggested maybe at the Village Hall and at the park near the ball fields.

ROADS

I spoke with Gary and asked that as he is traveling around the Village to map-out where the roads need repairs. This way we can put them out for bids this winter.

I had a request from Holly H. to have Gary repaint the sign posts, which have begun to peel. I have spoken with Gary about it.
