No report.

Other

12/12/2023 Spoke with Robert at SESAC. The Village is going with the option of an event license per day, rather than a yearly contract. SESAC will not wave the 5% + the Urban CPI. I explained to him that the State of MI only allows us a specific amount of tax revenue increase, and we have no way to come up with the 5%. Please note if someone complains that copyrighted music is being played on Village owned property, we can get a fine.

12/12/2023 Spoke with Consumers Energy (Mr. Reed) regarding electric charging stations. He is going to see if there are any investors interested. He said there is an investor out of Mt. Pleasant who, this past summer, installed charging stations in Glennie and Oscoda. Mr. Reed will get back with me.

1/2/2024 spoke with John Oliver with regards to the path which is marked on a GPS Ariel photo as S. Church Street. That is not a platted road within the village. It is an old path that the folks who had horse and buggies used to use to get into town, so they did not have to travel up the hill on Barlow Rd. That land is in private hands.

NOTE: I will be in Grand Rapids from 1/11-14, the Michigan Association of Fairs and Exhibitions Convention.
